SECTION I INTRODUCTION

1. BACKGROUND

- 1.1. The Universal Service Provision (USP) project is an ongoing effort to promote the widespread availability and usage of network services and applications services by encouraging the installation of network facilities and the provision for network services and applications services in underserved areas and/or for underserved groups within the community.
- 1.2. Suruhanjaya Komunikasi dan Multimedia Malaysia (SKMM) had, pursuant to subregulation 4(1) of the Communications and Multimedia (Universal Service Provision) Regulations 2002 [P.U.(A) 419/2002] (as amended by P.U (A) 258/2008 ("the Regulations")), issued and published a notification specifying a list of universal service targets under Notification Ref. No.: NT/USP/1/01, NT/USP/2/02, NT/USP/1/04, NT/USP/08/01 and NT/USP/01/11 ("the Notification").
- 1.3. This Invitation is made pursuant to subregulation 5(1) and subregulation 3(1)(b)(i) and subregulation 5(2)(ba) of the Regulations ("this Invitation"). Licensees are hereby invited to register their interest to be the universal service provider in the universal service targets specified in **Appendix 1** in accordance with the details set out in this Invitation.
- 1.4. Under this Invitation, the provision of collective access to broadband access services shall take the form of Collective Broadband Access network as part of Kampung Tanpa Wayar initiative. The provision of the collective network shall serve to enable broadband access for the target communities living in the universal service targets in particular the recipients of netbooks under the Komputer 1Malaysia initiative.
- 1.5. The Komputer 1Malaysia initiative, which was announced by Y.A.B. Prime Minister ("YAB PM") on 24 March 2010, aimed at providing netbooks to poor students and low income households living in the rural areas in view of boosting up the broadband access service takeup per household in accordance with the National Broadband Plan (NBP). Such initiatives shall complement the collective broadband access project in that the target recipients of the netbooks could enjoy broadband access services eventually contribute towards the take up of broadband services hence boosting the broadband penetration.
- 1.6. The implementation of Kampung Tanpa Wayar initiative are mainly focused at public areas such as the local Rural Library ("Perpustakaan Desa"), and other suitable locations such as schools and community halls to benefit the students and the surrounding communities. Such initiative primarily serve to boost the take up of broadband access service leading towards increased penetration rate for broadband access service in the universal service targets.
- 1.7. The ultimate goal of this project is to ensure that communities living in underserved areas are connected to mainstream Information and Communications Technology (ICT) development thus enabling and empowering these connected communities and bring about socio-economic development for those communities in the various sectors such as agriculture, education, health, business, amongst others.

1.8. **Goals For Connected Community Project**

- (a) The rural and remote communities living in the underserved areas, in comparison to their urban counterparts, are underprivileged as they lack ICT facilities, services, and applications. The gap that exists between those who “have” in the urban areas and those who “have not” in the rural areas in terms of their access to ICT (telephone, computer and Internet access, etc.) and related services is termed as the digital divide.
- (b) The connected community approach will enable the communities to access new knowledge and information that can be incorporated into their local knowledge and context, such as, provisions of information on employment opportunities, educational resources, government services (for example, providing links to e-Government, e-Learning, e-Commerce, e-Health, e-Agriculture, etc.) and technical information on agriculture for their daily lives, such as information on new varieties, planting techniques, and disease prevention.

SECTION II INVITATION TO REGISTER INTEREST

2. GENERAL EXPLANATION ON THE FACILITIES AND SERVICES TO BE PROVIDED

- 2.1. This Invitation is made with respect to the universal service provision objectives set out in regulation 3 of the Regulations of the provision of collective and individual access to broadband access service.
- 2.2. The collective and individual access to broadband service shall be provided through the setting up of collective broadband access as part of Kampung Tanpa Wayar initiative, in the clusters of universal service targets as listed in **Appendix 1** of this Invitation.
- 2.3. The Kampung Tanpa Wayar initiative shall be implemented to enable the following requirements to be met:
- (a) to enable the target communities living within the clusters of universal service targets (in particular the recipients of netbooks under Komputer 1Malaysia initiative) listed under **Appendix 1** to access to broadband services;
 - (b) the broadband access service of each to be offered in the clusters of universal service targets shall meet the minimum requirements as set out in **Appendix 3**;
 - (c) the administration, authentication, management and mechanism to charge users;
 - (d) the maintenance and operational support for the collective broadband access for the period of three (3) years as set out in **Appendix 6**; and
 - (e) the activities on awareness, promotion and marketing to encourage the use of broadband access service and to promote broadband service subscription.
- 2.4. **3 -Year-Plan for Kampung Tanpa Wayar Rollout**

Licensees shall include in the draft universal service plans all appropriate information including Capex and Opex costs relating to the setting-up, operation, maintenance and management of the collective access for broadband service for a maximum period of three (3) years.

3. REGISTRATION OF INTEREST AS UNIVERSAL SERVICE PROVIDER
