

NOTIFICATION

The communications and multimedia industry plays a pivotal role in enabling Malaysia's transition towards a digital nation. To facilitate an environment that is conducive for this transition and in light of the rapid development of the industry thus far, the Malaysian Communications and Multimedia Commission (MCMC) is undertaking a review of the Communications and Multimedia Act 1998 ("CMA").

The main objective of the review exercise is to ensure that the regulatory framework is able to continue facilitating the development and growth of the industry whilst ensuring a robust, creative, innovative, trusted and secure communications and multimedia landscape.

MCMC hereby seeks preliminary feedback from interested stakeholders on matters that should be considered in relation to the review of the CMA, and in particular on the following:-

- i. the communications and multimedia industry's development opportunities and challenges towards and beyond 2020; and
- ii. Issues (if any) with the current CMA regulatory framework and improvements needed.

Written submissions on the above matter can be provided to MCMC, either in hardcopy or electronic form, at the following address and/or through email by 5 pm, 28 April 2015.
