GUIDELINES FOR THE CERTIFICATION OF E-COMMERCE

**ENABLED WEBSITES** 

**COMMENCEMENT** 

The Income Tax (Deduction for Cost of Developing Website) Rules 2003 (the Rules)

are deemed to have effect from the year of assessment 2002.

**ELIGIBILITY FOR TAX DEDUCTION** 

Pursuant to the Rules, for the purpose of ascertaining under the Income Tax Act 1967

the adjusted income from a business resident in Malaysia who has incurred the cost

of developing a website which is electronic commerce enabled for the basis period

for a year of assessment, there shall be allowed a deduction of an amount equal to

one-fifth of that cost for that year of assessment and for each of the four following

years of assessment.

In these Guidelines "electronic commerce enabled" means a system of processes

where transaction involving the transfer of information, products, services or

payments can be made through electronic networks for an electronically confirmed

consideration as verified by the Suruhanjaya Komunikasi dan Multimedia Malaysia

(MCMC).

**QUALIFYING CRITERIA** 

The above tax deduction may be given to an applicant upon fulfilling the following

requirements:

1. The applicant must have a website.

2. The Domain Name System (DNS) for the website must be registered under

Malaysia (.my) domain names and hosted on a web server that is located in

Malaysia.

3. The website must be configured/secured with DNS Security Extensions

(DNSSEC).

4. The website can be accessed via both Internet Protocol (IP); Internet Protocol version 4 (IPv4) and Internet Protocol version 6 (IPv6).

5. There must be server software or applications that supply information to the web server on request. There must be:

a. Shopping cart or any programs that facilitates the collection of information.

The program is a way to let web shoppers select the products or services they want, preview the sale amounts, and delete items if they change their minds about, enter their payment and shipping information, and then cancel the order completely if they want.

- b. Security capabilities that will allow the encryption of data during the transfer of customer information.
- 6. The collection of payment may be made online or offline. If the collection of payment is carry-out online, there must be:
  - a. Software to process transactions and send information to all of the involved parties (seller's bank, customer's bank, etc.).
  - b. Security capabilities that will allow the encryption of data during the transfer of customer information.
- 7. The application will not be considered complete and would be rejected if it is:
  - a. missing mandatory information as required in the application form;
  - b. contains misleading or false information;
  - c. defective in any way;
  - d. not accompanied with signature of the applicants; or
  - e. not accompanied with the processing payment.

**APPLICATION PROCEDURE** 

The application procedure is as follows:

1. Application must be made by completing the form entitled "Application Form

for Certification of E-Commerce Website" and a processing fee of RM100.00

(Ringgit Malaysia One Hundred) by way of crossed cheque made payable to

Suruhanjaya Komunikasi dan Multimedia Malaysia.

2. For purposes of this application, MCMC may request for additional information.

3. Once the certification has been obtained, the applicant must attach the

certification to the income tax return form for submission to the Inland

Revenue Board.

Note: The criteria may change over time depending on advances in technology and

other conditions. For queries and information, kindly refer to:
